THE MADZI ALIPO MANAGEMENT SERVICE

HOW CAN THE MADZI ALIPO MANAGEMENT SYSTEM APPLY TO YOU?

the **madzi alipo** project
KULIMBIKITSA ANTHU KUBWEZERETSA MADZI

- Developed as a <u>Malawian product</u> designed to improve water point management, monitoring and community access to a safe supply of drinking water:

How can you use the Management System?

- Map all of your water sources.
- Receive and view multiagency historical data on boreholes you are working with.
- View updates on the status of your boreholes.
- Receive optional reports and notifications on functionality of boreholes.
- Implement part stock control.

How can you be a part of it?

- The Madzi Alipo Platform is <u>free to use</u> and implement for all users, from grassroots to decision makers.
- <u>Further support is available</u> to all agencies, capturing, verifying and updating information.

FREE SERVICE

- Use the Madzi Alipo App and Database to capture and analyse information.
- Manuals, guides and technical support available.
- Historical data transferred onto the Madzi Alipo System for instant viewing.
- Secure Storage for data.
- Online forum for communication and collaboration

HIDDEN FEES

- VIEW DATA ACROSS MALAWI FROM MULTIPLE WASH PLAYERS

Step By Step Guide to accessing the Madzi Alipo Platform

1. **Visit** our website at www.madzialipoapp.org to find out more about the database and view a video on the app.

2. **Email** madzialipoapps@gmail.com to receive a username and password.

3. **Explore** the Madzi Alipo Database to see water points recorded by multiple agencies in your area.

4. **Request** assistance from the Madzi Alipo Team in uploading your historical data and view it live on the site.
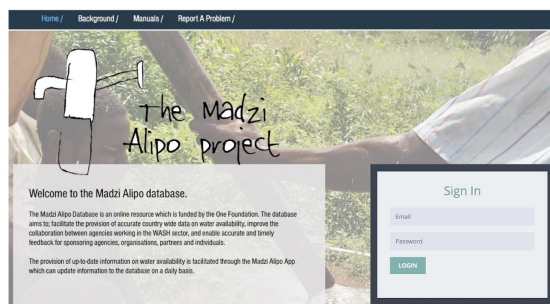

5. **Inquire** after a training workshop to equip your team with the skills needed to use the Madzi Alipo App and Database.

6. **Receive** follow up support and timely response for assistance.
